From the moment you walk into the Bexar, you'll appreciate the open-concept family room that flows into the kitchen and plenty of windows letting in natural light. The generous walk-in closet in the master suite is a dream come true, as is the privacy allowed by the split bedroom design. You'll love the convenience of having a kitchen island with a built-in eating bar and walk-in pantry. There's plenty of space for everyone in this well-thought-out floor plan.
